

HDCS

CENTRAL MANAGEMENT SYSTEM FOR DVR

Honeywell Security introduces HDCS – a new multi-DVR central management system for HD series embedded DVR.

HDCS is the central management software designed for HD-16DVR-C and HD-DVR-7016 to connect multiple devices for video surveillance. Featuring a user-friendly interface, HDCS can be deployed for device add-on, configuration, status monitoring, alarm event checking, video live view and recording, as well as E-map central management system. By connecting the 4-channel network decoder HD-NDE-4010 to the system, HDCS can switch any stream from DVR to video wall for live monitoring and control PTZ online.

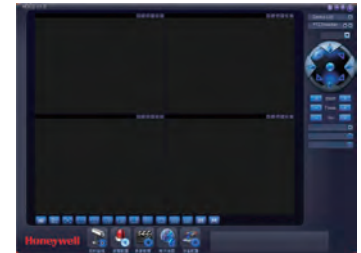

This intelligent system also features device auto search and configuration functions which enhance efficiency on monitoring and operation. HDCS supports 36 live view windows in one single screen and up to 144 window extension which is ideal for medium to large scale video surveillance system – particularly for customers who plan to move from analog to digital in the near future. HDCS efficiently develops a cost-effective and high performance video system by utilizing the network and its advanced functionalities.

Market Opportunities

HDCS is an all-round multi-DVR central management featuring device configuration, status monitoring, online control, alarm management, video recording and playback management etc on the terminal. It is suitable for medium and large scale surveillance installed with multiple DVR for more efficient operation by different level of administrators. HDCS is ideal for applications in buildings, hotels, hospitals, factories, shopping malls, car parks and so forth.

FEATURES

- Support Honeywell HD series DVR
 - HD-DVR-7016
 - HD-16DVR-C
- Multi-DVR management, support up to 960 video channel connection
- Support up to 36 live view windows at one single screen and maximum 144 windows extension viewing
- Video recording and playback management
- Local recording
- Digital matrix switch with HD-NDE-4010 decoder connection
- Devices management, auto search configuration and status monitoring
- Alarm management and inter linkage control
- PTZ control
- Video Snap-shot
- E-map

CENTRAL MANAGEMENT SYSTEM FOR DVR

SPECIFICATIONS

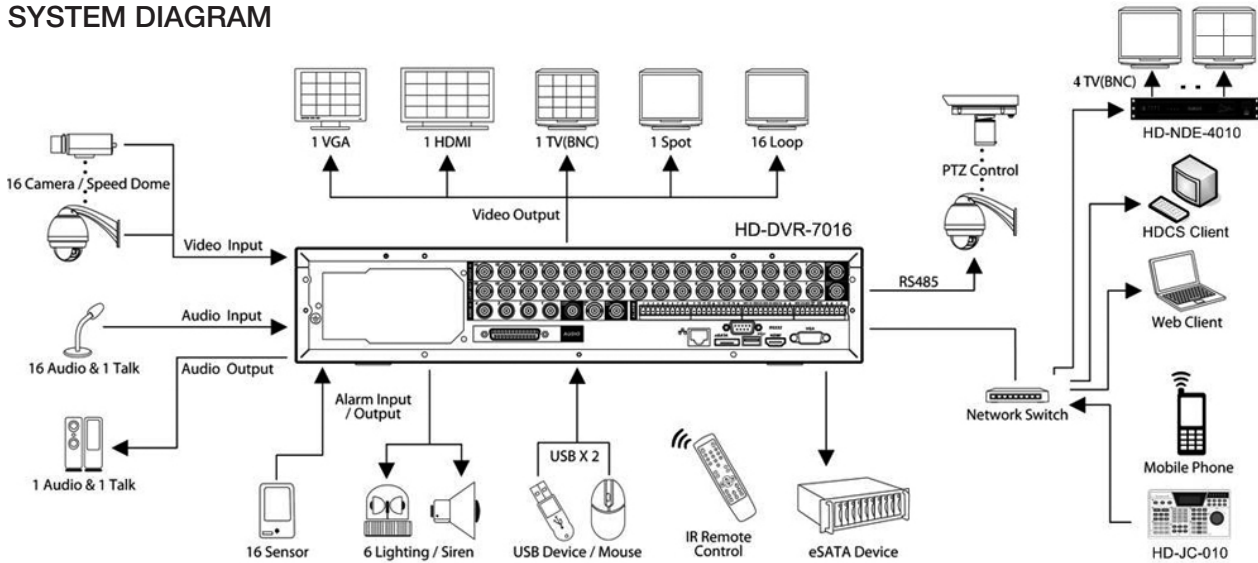

Model	HDCS
System	
Supported DVR	HD-16DVR-C, HD-DVR-7016
Supported Decoder	HD-NDE-4010
Max. Video Channels Connection	960 channels
Video Display Split	1/4/9/16/25/36
Management	
PTZ Control	Pan/Tilt/Zoom/Focus/Iris/Preset/Tour/Pattern
Video Playback	Yes
Snapshot	Yes
Local Recording	Yes
Alarm Management	Yes
Sound Management	Auto sound when alarm triggering
E-map	Support with 64 layouts
E-map Format	JPEG/BMP
Alarm Trigger	Recording/PTZ control/Relay out
Minimum PC Requirement	
CPU	Intel Core2Duo E6750, RAM : 2GB above
Memory	512MB
HDD	80GB above
OS	Window XP/Vista, DirectX 9.0 above
Screen Resolution	1024 x 768 or above
